

GB-SOL 35

35 Watt Monocrystalline PV Module

Product Description:

The GB-Sol 35 is a high quality mono-crystalline silicon cell module. It has toughened low iron glass and a tri-wall backing sheet for total environmental protection. Framed in a purpose-designed aluminium extrusion for ease of mounting.

Quality and Safety:

The GB-Sol 35 module is manufactured in an ISO 9001 - 2002 certified factory. Production process certified by TUV to IEC61215 and safety class 2.

Limited Warranties:

Freedom from defects in materials and workmanship for 5 years
Minimum 80% power output in 25 years.

Weight:

2.5KG

Cell Specification:

36 series connected 78mm x 78mm mono-crystalline silicon, quarter cells.

Dimensions:

780mm x 360mm x 42mm

Typical Electrical Characteristics:

Maximum Power (P_{max}) – Nominal	35 W
Voltage at Pmax (V_{mp})	17.5 V
Current at Pmax (I_{mp})	2.0 A
Short circuit current (I_{sc})	2.07 A
Open-circuit voltage (V_{oc})	21.9 V

Products are under continuous development and may be subject to change
